Managing the Workplace

Workplace productivity and collaboration

The modern workplace is evolving at pace with a flexible workforce, new business models and digital tools that allows teams to connect and collaborate. Businesses today must have the right combination of workplace productivity tools, an efficient operating system and smart applications to seamlessly support employees and encourage collaboration.

Workplace Productivity Tools: Microsoft 365

Microsoft 365 is a complete, intelligent solution, including Office 365, Windows 10, and Enterprise Mobility + Security, that empowers everyone in the business to be creative and work together, securely.

Bring together teams and resources all in one place:
Get the hub for teamwork with Microsoft Teams, where you can chat, hold meetings and share files and apps.

Connect the workplace with a mobile, intelligent intranet:
Share resources, news and apps across the organization with dynamic sites and portals.

Stay connected and organized on the go:
Connect and collaborate wherever you go, share files, coordinate schedules and book meetings.

Work together in real time with Office apps:
Share your files securely with OneDrive and co-create in real time.

STL also bolster the M365 suite of products with other best of breed vendors ensuring you are secure and resilient.

Connectivity

Connectivity underpins everything in a cloud-centric world and is the enabler that can take a business to the next level in the digital future. From VoIP to accessing the cloud, the benefits of flexible working, improving digital marketing and enhancing the customer experience mean that a reliable, secure and flexible connection is a necessity for the future.

STL offer a wide portfolio of industry leading connectivity services:

- ✓ **WiFi services**
- ✓ **Networking (MPLS, LAN, WAN)**
- ✓ **Cloud services**
- ✓ **Internet access (BB/ADSL/FTTC)**

Hardware

Keeping hardware in your business up to date usually means taking on substantial capital expense that usually hasn't been budgeted for. With STL's Hardware as a Service (HaaS) solution, procurement of the latest hardware through a monthly subscription, means that you won't need to worry about failing or inefficient hardware, and will replace the large capital expense with manageable monthly costs.

Areas STL can help you with our 'Hardware As A Service' (HaaS):

- ✓ **Laptops**
- ✓ **Desktops**
- ✓ **Servers**
- ✓ **Printers**
- ✓ **All IT peripheral products**
